The Emergency Department has made a referral for your child to Dr. Al-Darazi. He is a specialist in diseases of children. His office is located at 390 Lincoln Street East, Welland ON.

He reviews all referrals and his office will contact you within the next few days to set up an appointment and further instructions. If you do not hear from them in the next 2 business days, for any reason, please call the office at 905-788-1915

On the day of the appointment, make sure you bring your child's health card, all medications, the name of your family doctor and any other relevant document that you might have.

Seeing a specialist does not replace the care you receive from your family doctor. He or she is the central person in your healthcare. Make sure you book a follow up appointment with your family doctor. If you do not have one, you can call **Healthcare Connect Ontario at 1-800-445-1822**. The city of St Catharines provides similar information on their website www.stcatharines.ca or by calling 905.359.6043. Walk in clinics do not fulfill the role played by your family doctor.

If before your appointment you think you are getting worse, please return to the Emergency Department for reassessment. Please call 911 if you think you are having a life-threatening emergency.
